FASTAR

Case: 20976   Can't attach supporting documents to Invoice after 4.2.04 upgrade

The ability to add/remove document attachments from active invoices was lost due to a bug in v4.2.04. This functionality has been restored in v4.2.09.

Client specific cases may or may not appear in this list, depending on their impact on the baseline applications and / or site specific

FASTBUDGET

Case: 20911   Development with Actuals reports not using security filter configuration setting

On the Development with Actuals reports, the B/P/Q Fund/Orgn security settings were not using the configuration setting #9 override (to allow users with only Q access to be treated as if they have B access).

Case: 20914   Increase % not inserting correct budget type

Allow the % increase form to update the budget type if the new change number has a different budget type than the originating change number.

Case: 20935   Multi-select controls on Development Entry

Change the controls for Employee and Position on the Development entry screen from single selections to multiple selections.

Case: 20948   Dev Entry PDF's no longer summing properly

Resolved an issue with the PDF reports on this page not summarizing properly. They were fine until a recent prior release when a benefit change caused them to not sort properly, thus causing the issue.

Client specific cases may or may not appear in this list, depending on their impact on the baseline applications and / or site specific

FASTFINANCE

Case: 20629   Expenditure end date for Fund codes

For Banner clients, if a Fund code is terminated in the past, but has an expenditure end date in the future, the FAST financial applications (ex. Finance Reporting, AR, Budgets, JV, PCard, WebReq) will now consider the terminated Fund as valid until the expenditure end date passes.

Case: 20772   Add background color highlighting to subtotal and total lines when exporting

When exporting a report to Excel the subtotal and total lines will now be shaded.

Case: 20779   Ability for Finance filters to use comparison types

Added the ability to specify comparison types (ex. = or <> options under each filter control) on baseline Finance reports.

Case: 20913   Allow 'Data Refresh Status' report to work when DBMS_SCHEDULER is being used

Prior to this version, the Data Refresh Status report would only show jobs scheduled with DBMS_JOB, and the "Run Now" button would only work for DBMS_JOB records.

This version allows DBMS_SCHEDULER (a newer more modern Oracle technique for scheduling jobs) to show up and be executed from this report, while maintaining backwards compatibility with DBMS_JOB.

Case: 20963   Using a column filter causes error when "Fiscal Period To" filter is dynamic

When using a dynamic filter (ex. "Current Fiscal Period") on a report with a "Fiscal Period To" filter, the report would throw an error message when applying a column filter.

FASTHR

Case: 20662   Add fields to Faculty Appt

Add the following fields to the Faculty Appointment warehouse and reports:

CF03_CODE
CF01_CODE
APPT_NEXT_DATE
TENURE_REVIEW_DATE
PERAPPT_USER_ID
TENURE_REVIEW_CODE
APPT_REVIEW_CODE
DECISION_DEFER_DATE
DISCIPLINE_CODE
TENURE_PREV
APPEAL_DATE
NONTENURE_CONTRACT_CODE
NONTENURE_CONTRACT_DESC,
DISCIPLINE DESC
FTYP DESC

Case: 20849   HR Payroll Comparison Reports not using pinned report values

Updated the Compare Dates reports to conform to new standards and work within existing controls. This allows sticky filters, dynamic selections etc to work on these pages now

FASTPORTAL

Case: 19905   Add Datetime stamp to xl/pdf output

Added the ability to append the date and a time stamp to Excel and PDF output file names. This can be configured through Configuration Setting #4999 in each application.

Case: 20562   GL coding can contain hyphens on Financial Statement Editor

Fixed a bug with the Financial Statement Editor that was preventing GL codes from being entered if they contained hyphen (i.e. "-") characters.

Case: 20817   Show NULL values when column filter uses NOT comparison

On text (VARCHAR) columns on a reporting page, when applying a column filter and using a "NOT LIKE" or "NOT EQUAL" comparison type, if that column includes NULL values they will now show in the report results.

If you only want to see rows with NULL values, you can now use "NOT LIKE %"

Case: 20974   Default sort order cannot be blank

Fixed an issue on the Administration tab of a reporting page where an error would occur when trying to remove the default sort order from the report.

FASTSTUDENT

Case: 20669   Update warhouse package to use create or replace when creating synonyms

Updated refresh to limit to only A and B table when looking up the SYN and RSYN table set

Case: 20846   Enable Wait List number from Prod on Course Summary and Enrollment Summary reports

Wait List numbers have been updated to pull from production for active terms when configuration setting 400 is set to Y

Client specific cases may or may not appear in this list, depending on their impact on the baseline applications and / or site specific

FASTWEBREQ

Case: 20684   Restrict to A and B tables when looking up SYN and RSYN tablesets for the refresh

Refresh procedure has been updated to only look at A_ and B_ tables when setting the table set that is to be refreshed.

Case: 20950   Requisition Type is not being set when created from a copy

The copy feature has been updated to properly set the document type in the header record.

Client specific cases may or may not appear in this list, depending on their impact on the baseline applications and / or site specific
