

FASTBUDGET

Case: 16965 Log username/date when cancelling a Budget Transfer

The cancellation of Budget Transfers are now logged and can be tracked on the Budget Transfer Status report.

Case: 18277 Development Entry - after save, next button does not work

Fixed an issue on Development Entry where the previous/next buttons stopped functioning after a record had been saved.

Case: 18288 Budget Transfer Copy Error

Fixed an error preventing Budget Transfer from being copied. This error was introduced in version 4.2.00.

FASTFINANCE

Case: 17841 Cannot export Fund Orgn Access Report to Excel/PDF

Fixed a bug that was preventing the Fund/Orgn Access report results from being exported to Excel and PDF.

FASTPORTAL

Case: 18253 Add "Save As" button when executing a pinned report

IMUC feature request: added a "Save As..." button for Pinned Reports. Users can now execute a Pinned Report and then save a new copy of the report while leaving the original intact.

FASTRESEARCH

Case: 18278 Fix date control on Attributes tab of the Grant Details page

Fixed a bug preventing the date control from working on the Custom Attributes tab of the Grant Details page.

FASTSTUDENT

Case: 18004 Upgrade Grade Entry page to new data entry format

A new grading page has been developed. The existing page can still be used but clients should start to think about testing and migrating to this new page.

Case: 18237 Ensure WaitList is set to 0 if no wait list information found

For those clients that do not wait list students the wait list count numbers have now been forced to 0.

FASTWEBREQ

Case: 18388 Remove VALUE, TEXT columns from Vendor search control

On the Requisition page when selecting a vendor, the VALUE column is the same as the ID column, and the TEXT column is the same as the VENDOR column. These duplicate columns have been hidden from this control.
