

FASTBUILDER

Case: 24370 Change data type of existing column

Fixed a bug with the Page Builder wizard where it would not detect the change in data type of a column when editing an existing page if the column name remained the same (ex. if the query was edited to add TO_CHAR() or TO_NUMBER() etc wrapped around the column).

FASTHR

Case: 25078 Add columns to All Current Positions report

Added Job Salary Group, Job Salary Table and Job Salary Step columns to the All Current Positions report.

Renamed existing [position] Group/Table/Grade columns to Posn Salary Group, Posn Salary Table and Posn Salary Grade to differentiate them.

FASTPORTAL

Case: 24991 Two new number formats

Added two new number formats that display negative numbers in (parenthesis):

NUMBER, 2 DECIMALS, (NEGATIVES) = 1234.56 or (1234.56)

NUMBER, 2 DECIMALS, COMMA, (NEGATIVES) = 1,234.56 or (1,234.56)

These can be applied to a datagrid column from the Administration tab on reporting pages.

Case: 25028 Added Role Transfer option to Administration -> Access in all applications

A Role Transfer screen has been added to each application under the Administration menu, along side the User/Role Assignment screen. This screen allows administrators to bulk copy/move User/Role assignments.
