
FASTBUDGET

Case: 30224 Misc fixes for Budget Redesign 4.3.10 release

Miscellaneous fixes after major changes in 4.3.10 release and showing off the new functionality at our annual user conference.

FASTFINAID

Case: 30136 Award Totals by Student & Aid Year Report

New report, Student Financial Aid Awards by Aid Year, was created. Additionally, hyperlink created from Funds Management report to this new report, allowing users to see all awards by fund and aid year. Hyperlink also created from Student Aid Year Summary.

FASTFINANCE

Case: 30064 Document Number Search combine results when document touches both BS and IS

When searching for a document on the Document Number Search report, if that document had line items that touched both the Balance Sheet and the Income Statement, the document would show up twice on the report. This has been corrected to merge (sum) these lines together so that only one result is returned.

FASTJV

Case: 29914 Add dynamic filters for date controls

The following dynamic filters have been added to date control filters in JV:

- One Month Ago
- One Month Ahead
- One Week Ago
- One Week Ahead
- One Year Ago
- One Year Ahead
- Yesterday
- Today
- Tomorrow
- Last Month (range)
- This Month (range)
- Next Month (range)

FASTPCARD

Case: 30149 Edit Transactions display issue

Corrected display issue where the Grid Height scroll bar would get cut off by the page footer.

FASTPORTAL

Case: 29336 Query Viewer upgrade export

Upgraded Excel export to output .xls file without any HTML tags which was causing warning messages or blank files.

Case: 29980 Virtual Columns not available for crosstab

Newly created virtual columns are now available to cross tab.

Case: 29982 Column filter on virtual columns

Fixed column filtering grid header highlighting on virtual columns.

Case: 30164 Menu admin not clearing cache

Fixed an issue where the menu cache is not cleared when deleting a menu item.

FASTWEBREQ

Case: 29915 Add dynamic filters for date controls
