Case: 26248 Allow Dev Series to be restricted by security role

Added a new column "Restricted by Role" to the Manage Development Series screen. This column has either an edit pencil or + add icon depending on whether that series is restricted or not, clicking the icon will load a popup where role(s) can be selected. Only users with the role(s) will be able to see that series on summary reports and the Dev Entry screen.

You cannot restrict Forecast or Multi Year Planning series, but in those cases you could restrict users from accessing the Forecast or Multi Year Planning menu items via the Menu Access screen.

Case: 29622 New Budget Position Distribution Form

Created a new Budget Position Distribution page. This report allows you to distribute the annual budget by position with the information grouped by FOAPAL.
