
FASTHR

Case: 43599 Add cash_ind to Payroll Earn Dist

Add Cash Ind to Payroll Earn Detail and add additional filters to report including Pay ID, Pay Number and Cash Indicator

Case: 43721 HR security model not using selected field name

Fixed a bug when using the JLC security model and only using an employee number, if you selected an ID field that was not named "internal_id" it would not work.

Global Changes That Affect All Applications

Case: 43405 Excel Import does not work on Dynamic Procedures screen

Users can now export from and import to the Dynamic Procedures screen (i.e. to move them from TEST to PROD).

Case: 43783 Client Warehouse issue - long select statements

If the select statement used to build a client warehouse table exceeded Oracle's listagg maximum length, the creation of a new client table would error out. This case changes how the insert statement is being built to accommodate long select statements.
