
FASTPCARD

Case: 43880 Don't hide locked accounts from Account Overview report

Accounts that are locked but that still have current transactions in the billing cycle (ex. transactions from earlier in the cycle before the card got locked) will now correctly show up on the Account Overview report.

Global Changes That Affect All Applications

Case: 43405 Excel Import does not work on Dynamic Procedures screen

Users can now export from and import to the Dynamic Procedures screen (i.e. to move them from TEST to PROD).

Case: 43783 Client Warehouse issue - long select statements

If the select statement used to build a client warehouse table exceeded Oracle's listagg maximum length, the creation of a new client table would error out. This case changes how the insert statement is being built to accommodate long select statements.
