FASTRESEARCH

Case: 47206   New audit report for Rollups (copy of Exception Report)

Created a new report under Research > Reporting > General > Exception Report. This is a copy of the PDF Exception report that is generated when producing a statement, but without the formatting, page breaks, etc.

You can use this preview/audit what exceptions exist for a Rollup based on either an Agency or single Fund.

Client specific cases may or may not appear in this list, depending on their impact on the baseline applications and / or site specific settings.

Global Changes That Affect All Applications

Case: 47482   Ability to test email messages in the communication center

Added a "Test" button to the email dialog of the Communication Center. This will send a copy of the email that is being composed to the email address of the logged in user so they can see what it looks like before sending it for real.

Case: 47589   Advanced Options - ability to move more than one row at a time

On the Advanced Options tab, when dragging and dropping columns around to change their display order, users can now CTRL+click to highlight multiple columns before dragging if they want to move a group of columns all at once.

Case: 47638   Loading a Pinned Report when saved filter value has ' in it

Fixed a bug when loading a Pinned Report if one of the saved filter values contained a single ' quote character.

Case: 47766   FireFox - Display issue with drop down field controls

Fixed a minor display issue with dropdown lists introduced in the latest version version of Firefox (84.0.2).
